Starlight Onyx is a boutique hotel that serves the generation of millennials. The age of prosperity and self discovery. Being a millennial in 2020 can be an extremely stressful time of their lives. This is the age where they are in college, transitioning out of college into a new career, or just starting to establish themselves in the world. In fact, it is reported that millennials are more stressed than any other generation. That is why it is important for millennials to take a step back, breathe, and find time to enjoy life. Starlight Onyx is a pace for millennials to de-stress and take a pause from their day to day life.
