# YAMPA RIVER COMMUNITY CENTER

LOCATION: Hayden, CO

The Yampa River Community Center is a place where families and friends can learn, play, and celebrate the small joys of life together. Located in a small mountain town in northwest Colorado, the community center transforms an old high school building into an affordable, practical solution that serves the community. Amenities include a gymnasium, an auditorium, maker spaces, a childcare center, office space, and more. The proposed spaces meet the current needs of Hayden while also curating a greater sense of community. All of the spaces promote friendship, gathering, and collaboration.
